

Brand identity / Creative direction

CONSIDERED ARCHITECTURE.

A SENSE OF HOME.

A composed identity for
spaces shaped around the
people who inhabit them.

Selected visual direction, brand strategy,
application studies and a practical creative brief.

OCTOBER 2026 / CLIENT REVIEW

Architecture that belongs. OF THE HOMES

The name's intended meaning anchors the identity in belonging. Domiorum should express the connection between carefully designed spaces and the lives unfolding within them.

PROPOSED POSITIONING

Domiorum Architects creates carefully considered spaces that bring architectural clarity to the experience of home.

For clients who value considered design.

01

Bespoke homes

Homeowners commissioning residences that balance individual character with practical living.

02

Reimagined interiors

Clients renovating or reshaping existing spaces for comfort, coherence and everyday use.

03

Architectural partnerships

Developers and collaborators seeking a distinctive, disciplined architectural approach.

HOW THE BRAND SHOULD FEEL

Precise

Disciplined geometry

Considered

Purposeful decisions

Confident

Calm assurance

Human

Comfort and belonging

Enduring

Beyond passing trends

A shared architectural signature.

Shared structure

The intended D + A construction shares strokes, connecting the initials into a coherent whole.

Linear precision

Straight uprights and a diagonal establish a disciplined, architectural rhythm.

Curved balance

The curved outer contour softens the geometry and introduces a human, spatial quality.

Independent symbol

The monogram can act as a compact signature once the full brand name is recognised.

Conceptual reading of the selected mark. Final vector geometry will preserve the approved form.

One identity, flexible arrangements.

Space is part of the identity.

Illustrative spacing study. Final measurements follow the vector master.

Generous clear space

Proposed rule: reserve at least one subtitle cap height (x) around every logo arrangement.

Respect the separation

Keep symbol and name visually distinct. Retain the selected open gap between DOMIORUM and ARCHITECTS.

Check the smallest use

Test small digital and printed sizes for stroke clarity and subtitle legibility before setting minimum sizes.

Depth. Warmth. Clarity.

01

Deep navy

#0F172A

PRIMARY BACKGROUNDS

RGB 15 / 23 / 42

02

Warm gold

#E2C799

MONOGRAM + RESTRAINED ACCENTS

RGB 226 / 199 / 153

03

Alabaster

#F8FAFC

TYPE + LIGHT SURFACES

RGB 248 / 250 / 252

Use navy as the visual anchor and gold with restraint. Build flat-colour and single-colour masters; confirm CMYK conversions, paper stock and any metallic finishes with the printer.

Clear lettering. Measured rhythm.

DOMIORUM
ARCHITECTS

Geometric character

Light, even strokes. Circular forms. Clean diagonals. Uppercase lettering with considered tracking.

A matching family

DOMIORUM and ARCHITECTS share the selected reference style, with a clear difference in size and emphasis.

Production requirement

Confirm a licensed typeface matching the reference, then define weights, spacing and a supporting body-text family.

A visual world shaped by light.

Natural light

Soft daylight and spaces that feel lived in.

Material honesty

Stone, plaster, timber and restrained metal accents.

Editorial restraint

Generous margins, clear alignment and quiet typography.

Generated visual direction study; imagery does not depict completed Domiorum projects.

A composed presence in print.

BUSINESS CARD / FRONT

Name Surname

Architect / Role

Contact details to be supplied

Illustrative applications; names, project information and contacts are placeholders.

Recognisable across every touchpoint.

WEBSITE / OPENING VIEW

Concept applications only. Website navigation and content will be developed separately.

FACADE SIGN

Compact mark

Avatar, drawing stamp or project marker.

Speak with clarity and warmth.

Considered spaces. Meaningful living.

Describe how a design improves the experience of a space. Use specific language about light, proportion, materials, movement and everyday living.

Direct / Specific / Human / Assured

A home organised around light, privacy and the rhythm of daily life.

A sheltered courtyard brings daylight into the centre of the plan. Connected living spaces allow the home to open up while quieter rooms provide retreat.

Creative brief / Strategic direction

OBJECTIVE

Resolve the selected identity into a consistent, professional system for residential and interior architecture.

AUDIENCE

Homeowners, interior clients, developers and collaborators who value thoughtful design and a dependable architectural partner.

SINGLE-MINDED MESSAGE

Carefully considered architecture creates a stronger sense of home.

DESIRED RESPONSE

This practice understands both the technical demands of architecture and the way I want to live.

Creative direction: precise and premium, with a human warmth. Use the approved shared-stroke monogram, a navy-led palette and matching light geometric lettering.

Creative brief / Production plan

DESIGN REQUIREMENTS

- + Preserve the selected monogram and its clean left upright without a projecting foot.
- + Keep symbol and wordmark independently usable.
- + Match both text lines to the selected geometric reference style.
- + Maintain generous spacing, clear hierarchy and proportion.
- + Use the agreed navy, gold and alabaster palette.

FINAL IDENTITY PACKAGE

- + Vector masters: SVG, PDF and editable source.
- + Stacked, horizontal, symbol-only and wordmark assets.
- + Full-colour, single-colour and reversed versions.
- + Transparent PNG exports at useful sizes.
- + Usage guide: clear space, minimum sizes, typography and colour.
- + Application templates: cards, proposals, drawing title blocks, site signage and social profiles.

SUCCESS CRITERIA

Distinctive at a glance. Legible at practical sizes. Consistent across print and digital. Premium without visual noise. Straightforward for the team to use.

From selected direction to a usable system.

01	02	03	04
Resolve Confirm lettering, vector geometry and final proportions.	Validate Test small sizes, monochrome uses, materials and print colour.	Apply Build the priority templates and approve representative touchpoints.	Deliver Package masters, exports, font information and a concise usage guide.

This presentation brings the brand strategy and selected visual direction together. Application layouts and spacing rules are proposed studies. The final identity requires a vector master, a confirmed licensed font and production checks.
